### **EXAMINER'S STATEMENT OF REASONS FOR ALLOWANCE**

The following is an examiner's statement of reasons for allowance:

Independent claims 1 and 13 are allowable because the prior art of record does not disclose or reasonably suggest the limitations of determining a number of a group's representative audio documents, where an identifier of audio documents representing a group is reproduced loopwise when a group is selected, and positioning audio documents with respect to a user in a space so that a user can select documents having a position less than a determined distance from the user in the space. *Okada (JP '575)* and *Hinde ('794)* in combination teach the limitations of positioning audio documents with respect to a user in a space so that a user can select documents having a position less than a predetermined distance from the user in the space, and reproducing the audio documents loopwise, but omit determining a number of a group's representative documents. Applicants' Specification Page 13, Line 29 to Page 14, Line 27, says that groups of documents having auditory coherence are identified, and a document is assigned to a group by adding a new column to an array of descriptors that contains a number identifying the group, and Page 10, Lines 10 to 27, states that a user determines a number of each group's representative documents. The Specification, Page 3, Lines 12 to 15, discloses an overall objective of permitting a user to navigate in an effective and convenient manner between documents that are easily classified for a user.

Any comments considered necessary by Applicants must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

### **RE: INFORMATION DISCLOSURE STATEMENT**

The Information Disclosure Statement filed 16 July 2008 fails to comply with the provisions of 37 CFR 1.97, 1.98 and MPEP § 609 because there is no publication date for the book authored by Gilbert Saporta. It has been placed in the application file, but the information referred to therein is lined through to indicate that it has not been considered as to the merits. Applicants are advised that the date of any re-submission of any item of information contained in this Information Disclosure Statement or the submission of any missing elements will be the date of submission for purposes of determining compliance with the requirements based on the time of filing the statement, including all certification requirements for statements under 37 CFR 1.97(e). See MPEP § 609.05(a).

The Information Disclosure Statement filed 16 July 2008 necessitated reconsideration due the policy of the USPTO that every item of Non-Patent Literature requires a publication date in order to be formally considered. There is no publication date provided for the book authored by Gilbert Saporta, nor could a publication date be easily ascertained by the USPTO.
